

### World Bicycle Day

"Paddle today - Save tomorrow". A simple yet profound message was given by Class II on World Bicycle Day. They celebrated the uniqueness, durability and versatility of the bicycle as a sustainable and eco friendly means of transportation.

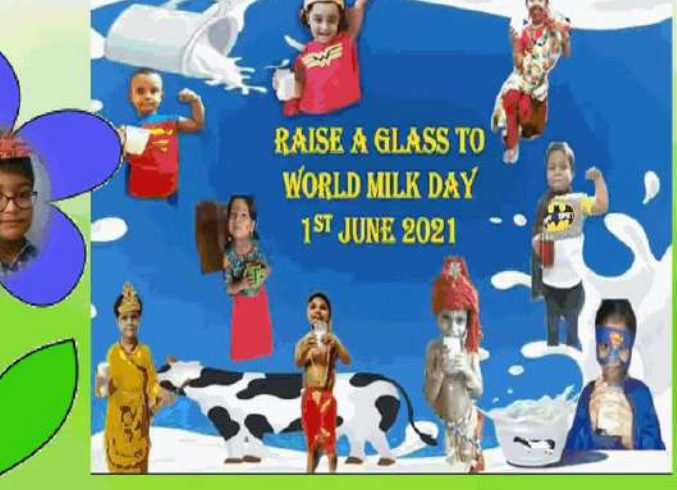

### World Milk Day

On World Milk Day the little superheroes of KG encouraged everyone to stay healthy by making milk a part of their everyday diet. Let us raise a glass to that!

### Earth Day

It is our collective responsibility to preserve and tend to the world in which we all live. The students of Nursery, Class I and II drew and spoke about the Earth they would like to live in. KG students showed the way to keep the Earth pollution free by promising not to waste water and electricity.

### May Day

The students of Nursery and KG said "Thank You" to their helpers by making lemonade and thank you cards .The students of Class I enjoyed a role play, "Our Community Helpers" during their EVS class . These activities helped the students to appreciate and value all the people who help them every day at home.

### Super Dad

To celebrate their super dad's presence in their lives the students of Nursery spent some precious moments with their fathers. The students also made 'Superhero' cards and presented it to their father on Father's Day.

### Global Parents' Day

Students of Class I celebrated the special bond with their parents. They created beautiful memories by engaging in several fun activities together.

### Mother's Day

To show their love for their mothers ,the students from KG to Class VIII made handmade thank you cards for their mothers. The little ones from nursery engaged themselves in fun filled activities with their moms.

### Lemony Lemonade

To beat the heat the Nursery students made a simple immunity building drink - a lemonade connected to the letter LI. They learnt that water on its own has no taste but when certain ingredients are mixed in it, it can taste salty, sweet or sour. Not only did they learn how to make a drink and share with their family but they also connected different tastes to different ingredients. A Lemonicious lesson indeed!

### Summer Fun

The little ones of Nursery were summer ready as they promised to eat all the summer fruits and vegetables and plenty of fresh water to stay cool and healthy. They also requested adults not to step out of the house without their caps, umbrellas and most importantly, their masks and sanitisers

### Puppet Speak

Who could ever think that humble paper bags could evoke so much creativity! A simple paper bag was used by the KG students not only to create paper bag puppets but also narrate stories through them

### Articles Art

Class I learnt articles "a" and "the" with the help of two stick figures created by them. This activity helped them to distinguish between the two articles and understand their usage.

### The Bar that Counts

The students of Class I enjoyed learning the concept of ones and tens with two bars of chocolate. While one whole bar represented the tens house, the other was broken into pieces where each piece represented 1. This helped the students to understand the place value in a lip smacking way!

### Place Value Game

Maths has never been so yummy! This ice-cream place value game made practice a breeze for the students of Class II. They engaged in a hands-on activity for learning about tens and ones and to combine them to make a two digit number.

### Counting with

Caterpillars helped make counting fun! KG students revised numbers 1-5 by making colourful caterpillars with cotton balls and finger painting. Counting became more exciting!

### Toys from Trash

On the World Creativity and Innovation day, students of Class II gave shape to their imagination by making toys from waste materials. Tumbling matchbox, balloon bugle and old newspaper doll swing, mini table with plastic bottles were amazing toys created by the students. This activity helped the students to explore, experiment and innovate.

### Story Mapping

A new post reading activity, story mapping helped the students of Class II learn to read with an eye to detail, comprehend and organise their thoughts and sequence the events.

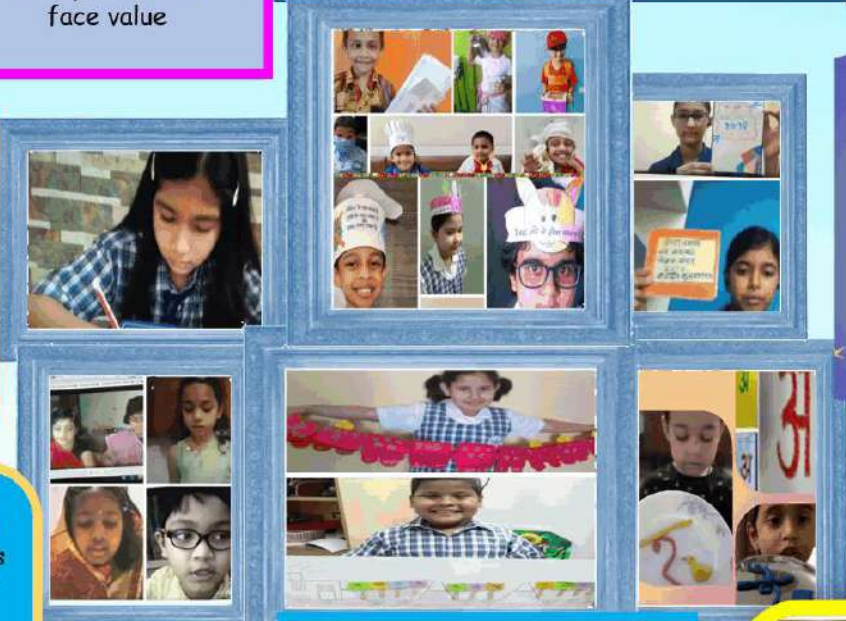

**Place Value Mat**  
Follow the leader - a fun filled game helped the students of Class III to learn the difference between place value and face value

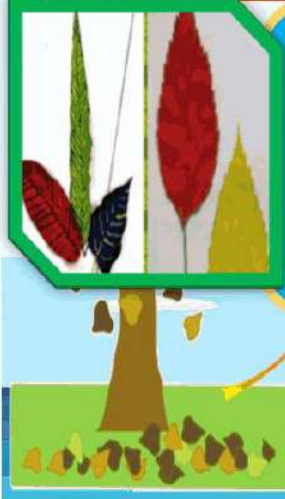

**Expressions**  
Learning different kinds of sentences couldn't be more fun. The students of Class III used emoticons to associate them to different kinds of sentences - Assertive, Imperative, Interrogative and Exclamatory.

**Hindi and Bengali**  
Activity based learning helps students to process and retain information in an enjoyable way. The language teachers of Birla High School Mukundapur implemented various interesting activities during the Bengali and Hindi classes. From sensory learning like tracing letters in grain and creating them with play dough to role play, from hands on activities to celebrating special days, learning was made fun and innovative by the teachers.

**Movements of Earth**  
Rotation and Revolution of the Earth was well demonstrated by the students of Class III with the help of a globe and torch.

**Symmetry**  
Art takes nature as its model. Students of Class III collected leaves of different sizes and textures and painted them in bright colours to understand symmetry and structure.

**Float and Sink**  
Using the process of experimentation, asking questions and discovering answers. Students of Class III conducted the float or sink activity to figure things out for themselves rather than reading the answers in the book.

**Creative Learning**  
With the help of Flipgrid videos and DIY models the students of Class V built their vocabulary on homophones, homonyms, antonyms and synonyms.

**Swami and Friends**  
Based on the Rapid Reader text "Swami and Friends", pupils of Class VIII shared their views, over Flipgrid on teacher-student relationship, importance of friendship & relevance of humour in their daily lives.

### Papier Mache Globe

No globe at home? No worries. The students took a break from their hectic schedule and created their own globes using papier mache. The process was messy yet fun to say the least.
